

Madhan M

Computer Science Engineer

OBJECTIVE

I'm a passionate web developer focused on building user-friendly applications. I enjoy writing clean, efficient code and exploring new technologies. Eager to learn and stay updated with the latest industry trends.

Projects

Online Social Media (MERN)

- Developed a social app with features like posts, comments, and live updates.
- Implemented using MongoDB, Express.js, React.js, and Node.js.

Career Nexus – Placement Management System

- Built a portal with an AI chatbot and real-time placement data display.
- Automated chatbot ~70% of student support queries, enhancing information accessibility.

Internship

MERN stack by Web Stack Academy (8 weeks)

- Developed a full-stack room booking and accommodation platform. Gained hands-on experience with MongoDB, Express.js, React, and Node.js.

Personality Traits

- Teamwork – Collaborative in group projects
- Adaptability – Quick to adjust in new environments

Certification

- Introduction to Internet of Things - NPTEL
- Java for Beginners - Udemy
- Database Management Systems by Infosys SpringBoard

Co-Curricular Activities

- IEI Club – Technical Event Volunteer
- NSS – College Event Volunteer
